## Products

### Permaloid® Gun Cleaner 7025

1. After the application work, empty the spray gun.
2. Remove the paint cup and disconnect air supply. Optional, remove both the fluid tip and air cap.
3. Clean the inside of the spray gun and the removed parts using either the short or long plastic cleaning hose. Use over a container to collect waste. (Spraying distance: 0 – 20 cm)
4. Let the spray gun drain of residual solvent.
5. Use compressed air to blow dry the spray gun and re-assemble.

## Remarks

- The information on usability refers to a new un-used can when properly stored between 15 - 25°C and a relative humidity not over 60%. The can must be upright, dry and protected from chemical and mechanical influences whilst stored and transported. The safety instructions on the can as well as all legal provisions of the storage location are to be considered.

Consult Safety Data Sheet prior to use. Observe the precautionary notices displayed on the container.

All other products referred to in the refinish build up are from our Spies Hecker product range. System properties will not be valid when the related material is used in combination with any other materials or additives which are not part of our Spies Hecker product range, unless explicitly indicated otherwise.
